FAI – F3C Team Selection Process For the 2011 F3C W/C

25 February 2009.

The following procedure will be followed for the F3C Team Selection for the 2011 F3C W/C.

The following four competition rounds will count towards the above mentioned team selection:

1. MHSA Master/Open 2009
2. MHSA Nationals 2010
3. MHSA Master/Open 2010
4. MHSA Nationals 2011

The team will be selected by taking the normalised results from the above mentioned MHSA competitions into account, the last of which is mandatory to be flown.

The final standing will be determined by taking the best three normalised points standings (1000 points max. for each round) for each of the four competing rounds into consideration.

Further to the above, the following may also be applied where applicable.

- Should a tie result, the pilot that has flown all four rounds will take preference.
- Should there still be a tie, then a fly-off round between tied participants may be called and judged.
